YOUTUBE CHANNELS

Looking to learn more about cybersecurity? Check out these top YouTube channels!

Cybersecurity is a rapidly growing field, and with the ever-increasing threat of cyberattacks, it's more important than ever to stay up-to-date on the latest trends and techniques. That's where YouTube comes in! There are a number of great cybersecurity channels on YouTube that offer a wealth of information for beginners and experienced professionals alike.

Here are a few of my favorites:

* **Insider PhD: ** This channel is run by Dr. Charlie Miller, a former Apple security engineer who is now a well-known cybersecurity researcher. He covers a wide range of topics, from basic security concepts to advanced hacking techniques.

* **Rana Khalil: ** Rana is a cybersecurity expert with over 10 years of experience in the industry. She has a knack for explaining complex concepts in a clear and concise way. Her channel is a great resource for anyone who wants to learn more about cybersecurity.

* **Spin the Hack: ** This channel is run by two cybersecurity experts, Kevin Beaumont and Troy Hunt. They cover a wide range of topics, from security news to interviews with security professionals.

* **PwnFunction: ** This channel is run by security researcher Gabriel Weston. He covers a wide range of topics, from basic security concepts to advanced hacking techniques.

* **Cyber Sec Village: ** This channel is run by a team of cybersecurity experts from around the world. They cover a wide range of topics, from security news to interviews with security professionals.

Farah Hawa - This channel is run by Farah Hawa, a security researcher and speaker. She covers a variety of topics, including social engineering, malware analysis, and web application security.

YOUTUBE CHANNELS

Stefan Rows - This channel is run by Stefan Rows, a security engineer and author. He covers a variety of topics, including network security, cloud security, and application security.
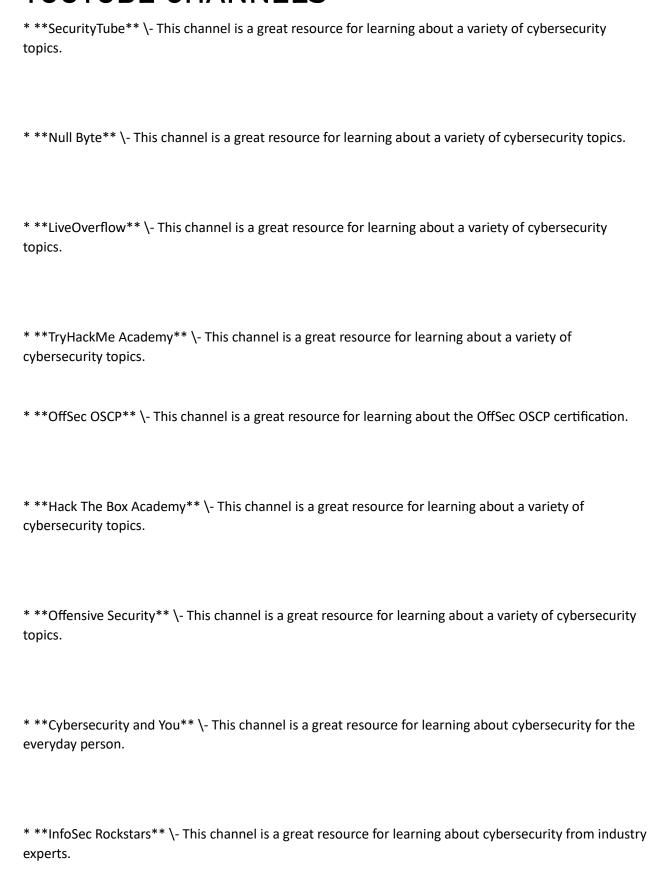

Cubed - This channel is run by 13Cubed, a security researcher and trainer. He covers a variety of topics, including exploit development, reverse engineering, and binary analysis.

I.T Security Labs - This channel is run by I.T Security Labs, a group of security professionals. They cover a variety of topics, including incident response, threat intelligence, and security awareness.

Cybr - This channel is run by Cybr, a security researcher and speaker. He covers a variety of topics, including social engineering, malware analysis, and web application security.

* **The PC Security Channel** \- This channel covers a wide range of cybersecurity topics, from malware removal to password security.

* **NetworkChuck** \- This channel focuses on networking and cybersecurity topics, such as firewalls, routers, and VPNs.

* **Cyberspatial** \- This channel covers a variety of cybersecurity topics, including ethical hacking, penetration testing, and social engineering.

* **John Hammond** \- This channel focuses on malware analysis and reverse engineering.

* **Kitboga** \- This channel is a great resource for learning about and dealing with scammers.

* **Jack Rhysider** \- This channel is a great resource for learning about the dark web and cybercrime.

YOUTUBE CHANNELS

* **Black Hat** \- This channel is a great resource for learning about the latest cybersecurity research and trends.

* **TryHackMe** \- This channel is a great resource for learning about ethical hacking and penetration testing.

* **OffSec PenTest+** \- This channel is a great resource for learning about the OffSec PenTest+ certification.

* **Cyber Mentor** \- This channel is a great resource for learning about the basics of cybersecurity.

* **Hacking with Kali Linux** \- This channel is a great resource for learning how to use Kali Linux, a popular penetration testing distribution.

* **Security Weekly** \- This channel is a great resource for staying up-to-date on the latest cybersecurity news and trends.

* **InfoSec Institute** \- This channel is a great resource for learning about a variety of cybersecurity topics.

* **Cybrary** \- This channel is a great resource for learning about a variety of cybersecurity topics.

YOUTUBE CHANNELS

* **SecurityTube** \- This channel is a great resource for learning about a variety of cybersecurity topics.

* **Null Byte** \- This channel is a great resource for learning about a variety of cybersecurity topics.

* **LiveOverflow** \- This channel is a great resource for learning about a variety of cybersecurity topics.

* **TryHackMe Academy** \- This channel is a great resource for learning about a variety of cybersecurity topics.

* **OffSec OSCP** \- This channel is a great resource for learning about the OffSec OSCP certification.

* **Hack The Box Academy** \- This channel is a great resource for learning about a variety of cybersecurity topics.

* **Offensive Security** \- This channel is a great resource for learning about a variety of cybersecurity topics.

* **Cybersecurity and You** \- This channel is a great resource for learning about cybersecurity for the everyday person.

* **InfoSec Rockstars** \- This channel is a great resource for learning about cybersecurity from industry experts.

YOUTUBE CHANNELS

* **The Cyber Mentor** \- This channel is a great resource for learning about cybersecurity from a beginner's perspective.

* **Cybrary TV** \- This channel is a great resource for learning about cybersecurity from a variety of different perspectives.

1. **Cyber Mentor**: Join Heath Adams, a renowned security expert, as he provides hands-on tutorials, walkthroughs, and valuable insights on ethical hacking and penetration testing. https://www.youtube.com/channel/UC0ArlFuFYMpEewyRBzdLHiw

2. **LiveOverflow**: Gynvael Coldwind takes you on a journey into the fascinating world of exploit development, reverse engineering, and cryptography. Prepare to be captivated by his in-depth knowledge and engaging presentations. https://www.youtube.com/channel/UClcE-kVhqyiHCcjYwcpfj9w

3. **Hak5**: Discover the latest tools, techniques, and news related to cyber security on the Hak5 channel. From hardware hacking to wireless network security, this channel covers a wide range of topics in an entertaining and informative manner. https://www.youtube.com/user/Hak5Darren

4. **SecurityTube**: Created by Vivek Ramachandran, this channel offers a vast collection of tutorials, workshops, and conference talks on various aspects of information security. Enhance your skills in areas like wireless security, web application testing, and more. https://www.youtube.com/user/SecurityTube

5. **Nahamsec**: Join Ben Sadeghipour, known as Nahamsec, as he explores the world of bug bounties, web application security, and ethical hacking. Gain insights from his real-life experiences and learn about the latest vulnerabilities. https://www.youtube.com/c/nahamsec1

6. **The Cyber Mentor Archives**: This channel is dedicated to preserving and sharing the archived content of The Cyber Mentor. Explore a treasure trove of previously live-streamed workshops, bootcamps, and Q&A sessions on various cyber security topics. https://www.youtube.com/c/TheCyberMentorArchives

YOUTUBE CHANNELS

7 **John Hammond**: Delve into the realm of Capture The Flag (CTF) challenges, malware analysis, and system security with John Hammond. His detailed explanations and walkthroughs will sharpen your skills and keep you up to date with the latest developments. https://www.youtube.com/user/RootOfTheNull
